DETAILED ACTION

1. Claims 1-15, 17, 33-37 have been canceled previously. Amended claims 16, 19-26, (11/8/2004) and claims 18, 27-32, 38-41 are under consideration.
2. Receipt of applicant's arguments and amendments filed on 11/8/2004 is acknowledged.
3. The following previous rejections and objections are withdrawn in light of applicants amendments filed on 11/8/2004:
 - (i) the rejection of claims 16, 19-25, 28-32, 38-41, under 35 U.S.C. 112, first paragraph, new matter rejection;
 - (ii) the rejection of claims 16, 19-26, 28-32, 38-41 under 35 U.S.C. § 112, second paragraph.However, Applicant's argument with respect to these claims is rendered moot in light of the new ground of rejection.
4. Applicant's arguments filed on 11/8/2004 have been fully considered and were persuasive in part. The new issues are stated below.
5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim objection

6. Claim 21 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claim 21 recites the limitation "at least 75% identical" which is indefinite because this claim does not further limit, in terms of % identity, the claim from which it depends (claim 16).

Art Unit: 1646

Claim rejections-35 USC § 112, second paragraph

7. Claims 16-26, 28-32, 38-41 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 16, line 4, recites the limitation “and lymphocyte stimulatory activity” which is grammatically incorrect. It is suggested that the claim be amended to recite “and exhibits lymphocyte stimulatory activity”.

Claims 19-25, recite, “a” lymphocyte stimulatory activity, which is improper and also does not further limit claim 16 from which they depend. There are several types of lymphocytes and it is unclear which lymphocytes and which activity are being recited in the claim.

Claims 18, 26-32, 38-41 are rejected as vague and indefinite insofar as they are dependent on the above claims for their limitations.

Conclusion

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 1646

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
